GoCabby Specification Sheet
GOCAB16

Capacity:
• Stores, charges and simultaneously synchronises 16 tablets with or without protective cases
• Accommodates all USB - powered tablets including iPad, Android tablets, Kindle Fire, Learnpad and more*. Protective cases include Griffin Survivor, Otterbox and other similar sized cases

Exterior Design:
• Telescopic trolley handle for easy movement
• 2 wheels and 4 feet to protect the GoCabby when open
• Two handles at each side allow the case to be carried safely

Interior Design:
• Tablets are placed in a supportive foam for protection. Velcro strap cover each row of tablets to hold them in place when being transported
• Foam lined compartment can house a laptop, its charger and Apple TV device
• Holder for a WiFi router and patch lead to an external RJ45 Face plate
• Case fully lined with foam for added protection for contents inside

Cable Management:
• Space-saving USB cable management keeps the cables compact, neat and tidy
• Power is supplied to the GoCabby by a 2 metre mains cable with detachable IEC lead

Power Management & Synchronisation:
• The Charge & Sync functionality is provided by the U16S Cambrionix technology enclosed in the centre console
• The intelligent charging allows you to charge multiple types of devices at the same time ensuring they all get the right amount of power
• Devices of the same type can also be synchronised all in one go saving you time when deploying apps and content
• The future proof design means that the boards are upgradeable so they can keep up with the current technology available
• Internal 13amp double socket for powering the router and the laptop
• When the device is fully charged but still plugged into the power supply our intelligent charging system will stop delivering power. Only when the device reaches the point of requiring additional charging will the charging system deliver any more power. When the device battery reduces to a certain level recommended by tablet manufacturers our board detects when the device requires power and provides it until the devices are fully charged again

Air Ventilation:
• Fan inside keeps tablets cool when tablets are charging with the lid closed and locked for security

Safety & Security:
• Two locks positioned at the top of GoCabby which can be locked with padlocks

Dimensions:
• Unit size: W565 x D400 x H795mm
• Tablet storage compartment: W222.5 x D32 x H314.5mm

Warranty:
• 2 years with an option to extend to 5 years
• Supplied fully assembled

Certifications:

Compatible with devices charged by USB only.
