1. Ergonomic wide grip ABS handles for light touch easy movement.

2. Dual point locking system, with keys provided, to secure at the top and bottom of both device and power compartment to prevent theft, damage or tampering.

3. Inset coloured door handles prevent protruding parts eliminating breakages.

4. Concealed lever unlocks rear power compartment to enable clear access to cables and AC adaptors when required.

5. Devices stored horizontally on individual ABS shelves to prevent damage, scratches and scuffs. Shelves are tilted back slightly to enable device to shuffle into position and remain stable during movement.

6. Specially designed device shelf includes cleverly integrated cable channel and 5 flush mounted cable clips to ensure cables stay in place and free from damage.

7. Cable clip portholes feed cables from back power compartment to front device compartment, preventing cables being removed with the device.

8. Charges all devices simultaneously. Power 7 Management System manages the power consumption to ensure power surges do not occur and all devices charge efficiently. Power 7 features a sophisticated timer allowing three different charge schedules a day, 7-days a week. Power strips turn on one at a time, 1.5 seconds apart to provide inrush surge protection.

9. IEC socket with 1.8m / 6ft power cord designed to snap out if pulled away from the wall to prevent damage.

10. Rounded corners fitted with rubber corner bumpers and extrusions for shock absorption to prevent damage to walls and devices inside.

11. Fitted with large all directional swivel, non-marking hospital grade rubber wheels (2 braked).

12. Large L shaped doors open wide for easy access to devices and cable management compartments.

13. Built-in heat sensor will shut off power if a device overheats or if interior temperature reaches 32C/90F degrees to prevent risk of fire or damage to devices.

14. Silent ventilation system includes a uniquely designed weldmesh base to keep devices cool with constant air circulation without the need for a noisy fan that can spread germs.

15. Well placed vents allow constant air circulation.

16. AC pockets manufactured from flexible ABS to allow users to bend open the pocket allowing easy access during set-up and maintenance.
