

Smiles of storage for nursery  
and primary schools.

*Gratnells*

*Everything in its place.*

# Storage you can rely on. From the world's leading tray manufacturer.

**F**or over 35 years, Gratnells has been the leading name in school storage in over 68 countries of the world. That's because when it comes to playrooms and classrooms, Gratnells understands the needs of teachers and children alike as to what makes the perfect storage solution.

Our award-winning educational trays are renowned for their quality, safety, strength and durability. Which means that you can have confidence in knowing that when it's time to put classroom materials away, there's always a safe, convenient place for them. And with four different heights of tray plus a wide range of colours, storage is effective, efficient – and looks good, too.

But we don't just make trays. Our innovative line of early learning and primary school trolleys provide a whole range of solutions to storage that answer any classroom need.

Take a look through the pages of this brochure and see if you don't agree that when it comes to storage, there's only one name that you need to remember.

It's Gratnells, of course.

# Introducing HappyStack® Just what the teacher ordered.

**F**unctional – and fun! That’s the best way to describe our brand new HappyStack® storage system. With its vivid colours that brighten any playroom or classroom and its deep trays to hold plenty of toys, games and educational materials, HappyStack® is what teachers have been waiting for.

Rugged, durable and created specially for the nursery and primary school environment, HappyStack® is easy to assemble and comes as a double or treble unit. Fitted with our famous super-tough Gragnells trays, HappyStack® can withstand the rigours of daily school use, yet still look great.

End panels of HappyStack® are available in bright colours, and can be customised with a range of different decals, including your own nursery or school crest. And the wooden crossbars allow each row of trays to be tilted forward, giving a clear view of tray contents.

We believe our new HappyStack® will be a big hit. Not just with teachers, but children too. Can tidying up really be fun? It can now, thanks to HappyStack®.

NEW  
PRODUCTS

# GratStack®. Build it up, build it across. It's the perfect flexible storage system.

Nursery and classroom materials are always on the increase. So what happens when the storage you have simply can't cope with any more items to put away? That's where our popular GratStack® comes in. It's a fully flexible system that lets you add more storage when you need it – and where you need it.

Each GratStack® unit comes complete with our world-famous Gratsnells trays, available in four different heights. But here's the bonus. Thanks to its unique construction and interlocking connectors, GratStack® can be expanded vertically or horizontally to give you more storage with no mess, no fuss and no classroom disruption. Simply click – and stack.

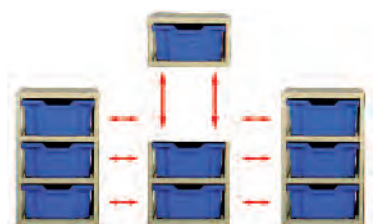

GratStack® comes with non-slip feet or castors, and is available in 6 frame colours; red, blue, beige, black, beech or grey, plus a range of tray colours to suit any school decor.

If you need flexible storage, you'll love GratStack®. In fact, once you've tried it, we think you'll really click together.

The new Alpha and Beta ArtStack give you more unmatched flexibility to store all your art materials and learning resources. Designed to offer easy access to art materials, they come in a stylish design that fire creativity as well as making a fun, ordered and safe environment for learning.

Build it up, build it across.

# The Gratnells ToyTidy and Sit 'n' Store. Big storage for big items.

It's big, it's mobile – and it's just what you need for storing books, toys and other large items.

The Gratnells ToyTidy® consists of a jumbo-size storage unit complete with castors, which means that children can simply pull the ToyTidy® to their play or learning area and when it's time to tidy up, the unit can easily be pushed back to the storage area.

Each ToyTidy® comes with bear decals and matching bear castors or standard castors. Easy to assemble, the ToyTidy® is a perfect complement to other storage units in the Gratnells range.

So when it comes to big items, it's no big deal with ToyTidy®. Simply wheel it out, and it's ready for work.

**W**hy not double up on storage and seating with a Sit 'n' Store? Ideal for story time at your book corner, or sitting at the art and craft area. And when your activity is finished, all the materials can be tucked safely inside. It's an unbeatable use of space.

## ToyTidy®

(380mm with castors, 305mm with seat)  
W: 312mm  
L: 427mm

# Trolleys and trays to fit every classroom need.

**M**aterials, toys and educational items come in all kinds of shapes and sizes. But all too often, storing them presents a real problem. Odd pieces of shelving, various cupboards and cabinets may offer a temporary solution, but certainly don't provide the ideal teaching or play environment.

Thankfully, the Gragnells storage system is at hand. Our tried and tested approach has been designed to cope with a whole range of storage requirements using trolley-and-tray units specially designed for early learning and primary school needs.

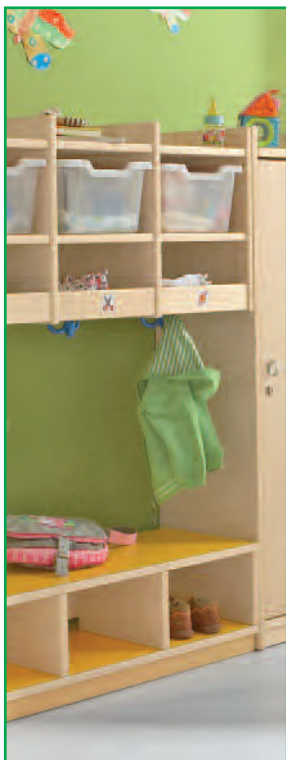

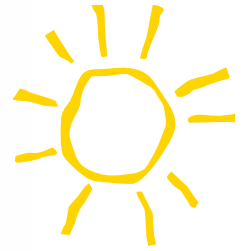

Gragnells storage trolleys come in single, double or treble unit frames, holding four different heights of our world-famous, super-strong trays. The frames are fully welded and are available in red or blue with a choice of castors or feet. All trays are fully interchangeable between units and other standard school furniture, and come in a range of colours to suit any school decor. Special items, such as our Art Trolley and A3 Paper Trolley give additional storage ability for items like large sheets of paper, unfinished artwork or jigsaw puzzles.

For quality, reliability and versatility, our system gives you the ideal storage solution. So whatever your classroom needs, you need Gragnells.

- Award-winning trays in four different heights – shallow, deep, extra deep and jumbo.
- Trays produced in a range of colours to complement any classroom décor (bespoke colours also available). Lids can be supplied to fit all tray sizes.
- BSI tested and passed for heavy educational use.

# Special purpose trays.

As well as our Art trays and A3 paper trays we have a range of new trays which are designed to give that extra bit of storage where you most need it.

## Cubby Tray

Ideal for storing smaller items, the Cubby Tray is Gratenells newest addition to the range and has been specially designed to fit into smaller spaces. It's a compact version of our standard deep tray and is ideal for both classroom and cloakroom use. Children can have their own personal storage box for wet shoes, lunch bags or personal effects. And the Cubby tray can easily be cleaned out and moved around, even by younger children.

## Quadrant Tray

This tray has been specially designed to maximise classroom space by fitting neatly into corners with specially designed wall-mounted brackets, in wooden furniture units or on a specially designed stand. So now teachers can choose exactly the right classroom storage to suit their needs without having to worry about sharp corners or wasted space. See overleaf for more information.

- Both cubby and quadrant trays are a matching height with Gratenells Deep school trays.

- Choose from five colours, flame red, grass green, sunshine yellow, royal blue and translucent.

- Designed to make the most of every bit of storage space.

- Ideal storage for preschools and nurseries.

# Innovative new storage.

Children can play and discover with the new Exploration Circle Set. Four Quadrant trays on four chrome stands can be clipped together to make a sturdy activity circle or lined up in a row to allow more children access at the same time. Fill them with sand, water, earth, shells whatever takes your fancy. Indoors or outdoors it's an unbeatable play and learning resource.

The Exploration Circle recently won a Silver Award in the Creative Play category at the Practical Preschool Awards 2012.

'Fantastic, wonderful, brilliant' is how the testers described the set. 'We thought of lots of uses for this product and how it could facilitate learning in all areas of education. The children use this on a daily basis. The drawers can facilitate large items; it is not just a sand and water tray, it is a communal hot spot!

Or if it's a spare corner you need to fill you can use our Quadrant trays on their well-mounted brackets to create 'floating' storage spaces. The trays fit right into the corner at whatever height off the ground that suits your needs.

So now you can choose exactly the right classroom storage to suit your needs without having to worry about sharp corners or wasted space.

Everything in its place.
