Your **perfect** PowerTray storage solution

The PowerTrolley will hold either three deep trays or two extra deep trays, each with ten devices and can be locked for safe storage. The PowerTrolley is available in a range of different colours to complement your work environment. The compact design requires minimum storage space, and allows the PowerTrolley to be easily stored in a locked cupboard or storeroom.

Secure and discreet design

Gratnells PowerTray²

Intelligent charging from the experts in storage solutions

Gratnells

USB device charging in a Gratnells tray
Stores and charges up to ten USB devices

PowerTray² features several improvements over PowerTray Mark I

The **portability** ensures ease of use in any school or business environment

Cost effective, charging from the **experts** in storage solutions

Technology is becoming increasingly important in school and business environments. From interactive whiteboards to personal tablets, people are having more learning displayed and more information delivered through their digital devices.

These devices play an important role in our everyday lives and this is reflected especially in the classroom. By comparison to traditional delivery methods, digital devices are quicker, more colourful, more interactive and have huge resources of information only a click away.

Capable of charging a variety of USB devices at optimum speed

Simply plug in, switch on and connect up to 10 USB devices

PowerTray² is the ultimate solution in mobile device storage and charging. The intelligent charging technology inside PowerTray² allows up to 10 different USB devices to be managed by the tray, giving an optimum charge rate and cycle time.

Thanks to its innovative design, PowerTray² meets the highest efficiency standards, meaning that a cooling fan is not required and so it is completely silent in operation.

Compatible with a variety of classroom and office furniture, it is available in two colour and two size variations as standard, offering a versatile and cost effective solution to many schools and businesses. For the healthcare and veterinary sectors, antimicrobial tray versions are available.

PowerTray² is certified to CE, ETL & RCM quality standards.

Antimicrobial versions available for healthcare / veterinary sectors

At a glance:
- Independently tested and certified to the highest operational and safety standards: CE, ETL & RCM.
- Compatible with most USB devices and operating systems including Apple, Android and Windows.
- PowerTrays fit most standard classroom furniture.
- High efficiency rating and silent operation.
- Available in deep and extra deep trays as standard in white or silver.
